# John Moore Horsemanship testimonials

---

Hi Jo and Claire, I just wanted to say thank you, and that I think you're doing a great job with equineevents and hope that your business grows and is a great success for you both. If it wasn't for you I and many others would not have met John Moore so well done there. The two one day clinics that i've attended and the two lectures have been brilliant for me, i've learnt so much from John, and at the end of the day its down to us how much time we put into our horses. Johns method makes total sense and I think hes a great teacher and together with the dvd's and the book he gives a whole lifetime of knowledge, its great. Can't wait for the summer camp, Gill and Splash! ps. is John bringing his guitar???

**Gill and Splash**

I've now done 2 training days with John and have learnt so much on both. He has really helped me turn a corner with my horse who is now a much happier, easier to handle horse. John explains things really clearly and has many amusing stories to share throughout the day!

**Nina Shuttlewood**

John Moore is a highly intelligent & articulate man, his deep understanding of what makes the horse tick, both mentally & physically has to be witnessed to be appreciated. Just 1, 1 day course & some spectating at further courses has made me see handling the equine from a different angle. I only wish I had access to this knowledge many years ago, I can't wait to spend 5 days training with him in June!

**Leonie Field**

I first saw John at his Frogpool demonstration last year and since then my horse, Aramis, has never been the same. I can now deal with him in a manner I always wanted to and really understand and get results. Having been to a few clinics now I can't wait till the camp when, instead of ending when things are just getting good, I will be able to fully explore this training method, culminating in getting onto Aramis for the first time in his life. I am so excited!! Thank you Claire and Jo for bringing this wonderful man to the UK for us all :)

**Tamara and Aramis**
